Summary

Frontend-focused Full Stack Developer with experience across React.js, Next.js, React Native, and the MERN stack, specializing in building scalable, high-performance web and mobile applications. Skilled in multi-tenant architecture, HIPAA-compliant systems, API integration, performance optimization, and leading frontend delivery in Agile team environments.

Technical Skills

Frontend: React.js, Next.js, React Native, Redux, Redux Toolkit, Zustand, React Query, Context API, React Hooks, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material-UI, Bootstrap
Backend: Node.js, Express.js, MongoDB, Firebase, RESTful APIs, JWT Authentication
DevOps & Tools: Git, GitHub, Docker, Terraform, CI/CD, Python, VS Code, Postman, Webpack, npm, ESLint, Prettier
Process & Collaboration: Agile/Scrum, Jira, Slack
AI-Assisted Development: Claude Code, GitHub Copilot, Codex, Antigravity, Vibe Coding, Context Engineering, Prompt Engineering, Tool Calling, MCP (Model Context Protocol), Context Window & Token Optimization

Experience

Frontend Developer, Multiminds Technology Pvt Ltd Dec 2025 – Present
Ahmedabad, Gujarat

- Build and maintain React.js and Next.js web applications with TypeScript, owning feature development, bug fixing, API integration, and performance optimization end-to-end.
- Independently published the team's first application on the Google Play Store, and implemented multi-tenant architecture and HIPAA-compliant data handling for healthcare-focused client projects.
- Improved application performance through optimized rendering and state management with Redux Toolkit, Zustand, and React Query.
- Led frontend delivery on client projects within a team of 24, using Jira for sprint planning, Slack for coordination, GitHub for code review, and maintaining regular client communication.

Software Engineer, BMV System Integration Pvt Ltd Mar 2025 – Nov 2025
Ahmedabad, Gujarat

- Expanded expertise beyond web applications to React Native, building high-performance, cross-platform mobile applications for Android and iOS within a team of 41.
- Continued refining React.js skills, optimizing applications for performance and maintainability while working extensively on state management, API integrations, and UI/UX enhancements.

Software Engineer Intern, BMV System Integration Pvt Ltd Aug 2023 – Feb 2025
Ahmedabad, Gujarat

- Developed responsive user interfaces using React.js, managing state with Redux, Context API, and Hooks, and integrated RESTful APIs with backend teams.
- Optimized performance through lazy loading and code-splitting, maintained client communication for requirements and updates, and used Git in a collaborative Agile environment.

Projects

Simply Insights (Retail Analytics B2B SaaS) | *Next.js, React 19, TypeScript, PostgreSQL, Python*

- Took end-to-end solo ownership of a B2B SaaS retail analytics platform, managing full-stack development across the Next.js/TypeScript frontend, PostgreSQL database, and Python background worker, while directly managing client communication.
- Built organization and subscription setup workflows, real-time delivery audit dashboards, and manifest-driven report preview viewers using Recharts, Next.js App Router, and Shadcn UI.
- Integrated a Python (Procrastinate) background task queue with the Mailjet API for automated email dispatch, and maintained code quality through Vitest, Playwright, and WCAG 2.2 AA accessibility standards.

SurveyGuard (Healthcare Compliance & Audit Platform) | *React 19, TypeScript, Redux Toolkit, Zustand, MUI*

- Built a dynamic audit and survey builder with drag-and-drop form creation, and a mock survey and deficiencies engine supporting real-time scoring and categorization for healthcare facility compliance workflows.
- Developed analytical facility dashboards and KPI charts using Recharts and MUI Data Grid, and integrated an AI assistant for automated survey recommendations and compliance insights.
- Built automated PDF/Excel export pipelines for audit reporting, and optimized heavy survey form rendering with virtualization and memoization, cutting form latency by roughly 40%.

RadioLogist IQ (Radiology CME Platform) | *React 19, TypeScript, CornerstoneJS, WebAssembly*

- Integrated CornerstoneJS to build an interactive browser-based DICOM medical image viewer supporting window/level adjustment, pan, zoom, measurement, and ROI annotations for MRI, CT, and X-Ray scans.

- Built a step-by-step diagnostic CME quiz engine, a searchable radiology case library with multi-filter drawers, and an administrative case ingestion pipeline for uploading and configuring DICOM series.
- Built performance analytics dashboards with Recharts, implemented role-based route guards, and optimized the DICOM rendering pipeline to prevent canvas memory leaks.

Aroma (Multi-Tenant Ticket Management System) | *React, TypeScript, Redux, MUI, Stripe, SSO* | arom-a.com

- Led frontend development under team lead guidance, mentoring an intern, on a Jira/Zoho-style multi-tenant ticket management platform, owning feature implementation, bug fixing, and sprint delivery.
- Architected the multi-tenant flow across a public landing app and a secure organization app accessed via subdomain redirection, and implemented SSO with Microsoft Entra ID.
- Integrated Stripe for subscription billing, and built core ticket management functionality end-to-end with React, TypeScript, Redux, MUI, and REST APIs.

MR Match (Dating Mobile Application) | *React Native, TypeScript, Firebase, Socket.io* | mrmatch.com

- Worked on the Android side of a Tinder/Bumble-style dating app focused on dating safety and LGBTQ+ inclusivity, fixing crashes, optimizing performance, and shipping new features on a partially built codebase.
- Built Tinder-style swipeable profile discovery with react-native-deck-swiper and geolocation-based matching, plus a live safe-dating feature with real-time GPS sharing, recording, and safety check-ins.
- Built group functionality with private/public groups and invite links, integrated Firebase and Socket.io for real-time features, and validated the app through Google Play closed testing.

Education

SILVER OAK UNIVERSITY, Ahmedabad — Oct. 2021 – June 2025
B.Tech in Information Technology — *CGPA: 9.64*

Shree Swaminarayn Gurukul, Surat — May 2021
Higher Secondary Education 12th Boards — *Percentage: 84.55*
